

PR 32 Ringed Pitched-Blade Impeller (45 mm)

P/N: 036300420

Due to its blade dimensions, the ringed pitched-blade impeller PR 32 is ideal for solutions, emulsions and suspensions in vessels with the following characteristics:

- ideal vessel diameter: 113- 225 mm
- ideal ground clearance: 23- 45 mm
- ideal filling level: 113- 225 mm
- ideal volume: 1,100- 8,900 ml

The ringed pitched-blade impeller PR 32 has a total length of 400 mm and is made of stainless steel. Its stirrer shaft has a diameter of 8 mm.

PR 32 Ringed Pitched-Blade Impeller (45 mm) - Technical Data

Blade size	45 mm
Material	stainless steel V4A
Length	400 mm
Shaft diameter	8 mm
Max. rotation speed	2,000 rpm
